

The team at Peoples Home Health is dedicated to ensuring our patients are taking the right medicine, with **the right dosage, at the right time** and according to doctor's orders. We work with patients, their families, caregivers and healthcare providers to create a plan of care to keep you as healthy and independent as possible.

# MEDICATION MANAGEMENT

## PROGRAM GOALS

- ✓ Obtain the best results from your treatment plan
- ✓ Avoid medication mistakes and harmful drug interactions
- ✓ Prevent readmission to the hospital or ER visits
- ✓ Decrease your risk for falls, memory loss, and confusion by managing medication side effects
- ✓ Assist you in knowing when to call your doctor
- ✓ Take medications exactly as your doctor prescribes
- ✓ Avoid duplicate medications and skipped doses

## *Your licensed clinician will:*

- Administer medications by mouth, intravenously, or through injections
- Provide medication teaching based on diet, drug interactions and diagnosis
- Perform physician-ordered lab work
- Create a medication schedule with reminders
- Review medication regimen including IM Injections, IV therapies and pain medication
- Review and create a complete list of all prescribed and over the counter medications
- Education on proper dosage, frequency and side effects
- Manage Pain
- Evaluate how you respond to medications and effectiveness
- Communicate with your doctor for optimum outcome

Your clinician will schedule an initial physical assessment and comprehensive medication reconciliation at your home. This assessment is done any time your medication changes, you have a change in health condition and every sixty days to ensure your medication lists are always current.

Our program makes it easy to take medications safely with the support from our professionals. Talk to your doctor today about scheduling a medication evaluation with Peoples.
